Description: This educational activity will provide healthcare professionals with a comprehensive understanding of the latest advancements in robotic-assisted joint replacement surgery. Participants will explore the complex relationship between the spine and pelvis and how robotic technology can improve surgical precision, reduce complications, and minimize the need for revisional surgeries. Additionally, the session will examine the differences in survivorship between robotic and manual partial knee replacement procedures, providing critical insights into patient outcomes. A thorough comparison of robotic versus conventional data for total knee arthroplasty will highlight the potential benefits and limitations of these technologies. Ultimately, the session aims to equip clinicians with the knowledge to make informed decisions regarding the integration of robotic systems in joint replacement surgery.

Audience: This course is designed for hospitalists, nurse practitioners, physician assistants, advance practice nurses, registered nurses, allied health professionals, physicians and residents.

At the end of this session, learners will be able to:

1. Recognize the complex interplay between the spine and pelvis and how robotics can help decrease the rate of complications and return to OR.
2. Differentiate survivorship in robotic vs manual partial knee replacement.
3. Summarize Robotic vs Conventional Data for TKA.

Accreditation: The HCA Healthcare Continental Division is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians
Credit Designation: The HCA Healthcare Continental Division designates this live activity for a maximum of 1.0 *AMA PRA Category 1™*. Physician should claim only the credit commensurate with the extent of their participation in the activity.

Commercial Support: This Activity was developed without support from any ineligible company.

*The ACCME defines ineligible companies as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Note: The ACCME does not consider providers of clinical service directly to patients to be commercial interests – unless the provider of clinical services is owned, or controlled by, an ACCME defined ineligible company.

Disclosure: The HCA Healthcare Continental Division is committed to providing CME that is balanced, objective, and evidence-based. In accordance with the Accreditation Council for Continuing Medical Education Standards for Integrity and Independence all parties involved in content development are required to disclose all conflicts of interest with ACCME defined ineligible companies. The HCA Healthcare Continental Division has identified, reviewed, and mitigated all conflicts of interest that speakers, authors, course directors, planners, peer reviewers, or relevant staff disclose prior to the delivery of any educational activity. The CME planning committee who are in a position to control the content of this CME Activity, have no relevant financial relationships with ineligible companies to disclose.
